

WHY BOYCOTT TEVA?

Because Teva directly funds Israel's occupation of Palestine.

Teva is the largest generic drug manufacturer in the world and the largest company in "Israel" by revenue. The billions of dollars in profit Teva makes off our medications directly helps fund the Israeli occupation of Palestine.

Because it's easy.

The boycott is a one-time phone call to your pharmacy! Since Teva is primarily a generic (off-brand) drug manufacturer, almost all of their medications have alternative suppliers of medications available at the same cost.

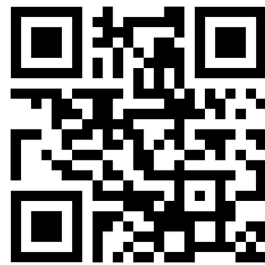

Because Palestinians can't.

Teva exploits the Palestinian "captive economy", in which Israeli apartheid policies prevent Palestinians from manufacturing their own pharmaceuticals and leave Palestinians with no choice but to buy their medications from Teva.

boycotting Teva!**

BOYCOTT TEVA

PHARMACEUTICALS

QUICK FACTS ABOUT TEVA:

Teva is the world's largest generic drug manufacturer and produces ~76 billion pills per year

Teva **bankrolls Israel's apartheid and genocide of Palestinians** as the largest company in "Israel" by revenue

Teva is required to pay multiple US states hundreds of millions of dollars for **its role in fueling the opioid epidemic**

Teva has a history of **price-fixing** and illegally raising costs of essential medications

⚠ SAFETY FIRST ⚠

Please **DO NOT** boycott TEVA if it would involve stopping your medications

Wondering if any of your medications are from Teva?

Check "manufacturer" on your prescription:

Manufacturers can change each refill. You should still make the boycott call even if none of your current medications say Teva!

Common Teva medications include:

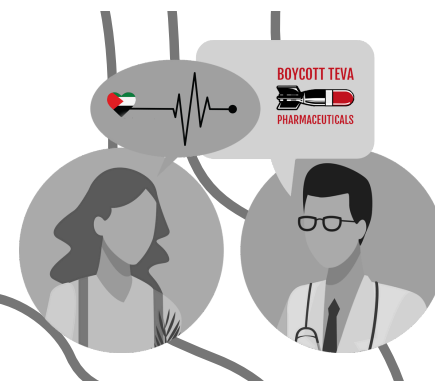

- Birth control pills
- Asthma inhalers
- HIV meds
- Antidepressants
- Blood pressure meds
- Hormones
- ADHD meds
- Antibiotics
- Thyroid meds

HOW TO BOYCOTT TEVA

Step 1: Call your pharmacy.

Step 2: Say no to Teva.

You can request your medication from a different manufacturer instead

Example Script:

"I prefer not to take Teva medications [optional: due to their complicity in the genocide of Palestinians and/or unethical business practices]. Could you please add a note to my chart saying 'No Teva medications, unless there is no similarly priced equivalent'?"
