PHARMACEUTICALS

No Pride in Genocide

Teva Pharmaceuticals is one of the **LARGEST** generic drug manufacturers in the world and the largest company in "Israel" by revenue.

Teva bankrolls Israel's apartheid and genocide of Palestinians and is complicit in the U.S. Opioid epidemic and price fixing of drugs.

Almost all of Teva's generic (off-brand) medications have alternatives from other manufacturers available at the same cost.

HOW TO BOYCOTT TEVA DRUGS:

Step 1: Call your pharmacy.

Step 2: Say no to Teva.

You can request your medications from a different manufacturer!

Example Script:

"I prefer not to take Teva medications [optional: due to their complicity in the genocide of Palestinians and/or unethical business practices]. Could you please add a note to my chart saying 'No Teva medications, unless there is no similarly priced equivalent'?"
